DESCRIPTION
As trains and On Track Equipment approach maintenance facility or wash bay doors, they often times do not stop. This can cause major damage to the maintenance facility and major injuries to personnel, in some cases even death.

To prevent incidents of this type, Protran Technology has developed the first real time, state of the art detection system that detects objects (train or On Track Equipment) approaching the maintenance door or wash bays as far as 400 feet away. Once detected, the system sends a visual and audible warning to personnel in the maintenance or wash bay facilities. This prevents accidents and will save lives, expenses in building damages, and even vehicle damage.

APPLICATIONS
- Train approach warning system
- Repair facilities
- Wash facilities

FEATURES AND OPTIONS
- 400 feet (121 meters) detection
- Track and object specific
- Speed settings from 1 mph to 200 mph and greater
- Curves or tangent detection
- Real Time
DESCRIPTION
Some key features of the Protran Technology system allows detection of vehicle speed, direction, and even vehicle type. The system can be programmed to only pick up those objects approaching the doors and ignore objects that may be moving in different directions.

Another key feature is that the system can be programmed to detect speed from 1 to 200 mph and is specific enough to be track specific regardless of whether track is curved or tangent. All the data is logged and can be reported to the supervisor for corrective action.

SPECIFICATIONS
Note: Specifications shown are for all models sold after the printed document date at the end of each bulletin.

Outdoor Motion Sensor
Placed outdoor
20” x 12” x 11”
(50.8cm x 30cm x 27.9cm)
2 lbs (0.9kg)

Indoor Motion Sensor
Placed indoor
23” x 11” x 11”
(58.4cm x 27.9cm x 27.9cm)
2 lbs (0.9kg)

LIMITED WARRANTY STATEMENT

Protran warrants its products, if properly used and installed, will be free from defects in material and workmanship for a period of 1 year after date of purchase. Said warranty to include ONLY the repair or replacement of defective equipment. This warranty does not cover damage due to external causes, including accident, problems with electrical power, and usage not in accordance with product instructions, misuse, neglect, alteration, repair, improper installation, or improper testing. This limited warranty, and any implied warranties that may exist under state law, apply only to the original purchaser of the equipment, and last only for as long as such purchaser continues to own and properly maintain the equipment. Product instructions accompany product shipment. If product instruction required please contact Protran Technology.

This warranty replaces all other warranties, express or implied including, but not limited to, the implied warranties or merchantability and fitness for a particular purpose. Protran Technology makes no express warranties beyond those stated here. Protran Technology disclaims without limitation, implied warranties of merchantability and fitness for a particular purpose. Some jurisdictions do not allow the exclusion of implied warranties so this limitation may not apply to you.

To obtain warranty service, contact Protran Technology for a return material authorization. When returning equipment to Protran Technology, the customer assumes the risk of damage or loss during shipping and is responsible for the shipping costs incurred.

Protran Technology recommends that their equipment be maintained and tested per any CFR, OSHA, NFPA, IEEE, APTA or any other standards for maintenance and testing that may apply.

Protran offers testing, maintenance and training services under our Service and Maintenance contracts to our customers.
